ABOUT WARMBOX

We don't change the food. We change how you eat it.

OUR VISION

To make hot food accessible anytime, anywhere.

OUR MISSION

To ensure every meal is enjoyed warm, wherever you are.

OUR PRODUCTS

Two shapes. Same heat.

Rectangular Self-Heating Box

Built for full meals on the move.

A compartmentalised container for complete meals — mains, sides, and sauces heated together after a single pour.

Circular Self-Heating Container

Compact, single-serve, ready to go.

A single-serve bowl-style container suited to soups, rice bowls, and one-pot meals.

COMPATIBLE FOOD

Built for real meals.

- **Rice & Biryani**
Steamed rice, pulao, biryani
- **Curries & Gravies**
Dal, paneer, chicken curry
- **Soups & Broths**
Vegetable, tomato, clear soups
- **Ready-to-Eat Meals**
Packaged, pre-cooked meals
- **Snacks & Sides**
Thepla, parathas, cutlets
- **Beverages**
Milk, soups, cup noodles

APPLICATIONS

Wherever it's needed.

- Travel
- Office
- Defence
- Outdoor Work
- Camping
- College
- Emergency
- Food Delivery

THE TECHNOLOGY

The technology behind the heat.

Pouring in water starts a self-contained heating process inside the container — no external power, flame, or equipment involved.

FOR BUSINESSES

Built for your brand.

Private labeling, custom packaging & sizes, bulk orders, and manufacturer integration for restaurants, cloud kitchens and caterers.
